

ACUTRAN

Reliable Custom Transformers

Custom Dry-Type Transformers

Acutran Custom Dry-Type Low Voltage and Medium Voltage Transformers are designed and manufactured to withstand the challenges of industrial application, and are engineered to the customer's specifications.

As custom manufacturer, Acutran can configure a product specifically for your application. Acutran will provide a quality product, delivered on time at a competitive price.

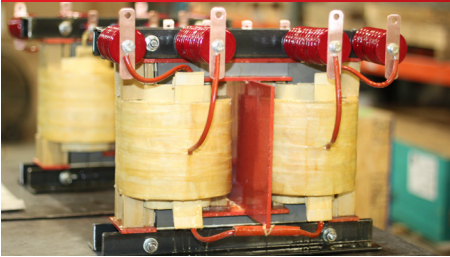

Acutran Medium Voltage Transformer Features:

- 50 Hz and 60 Hz designs available.
- 1kVA through 25kVA.
- Copper or aluminum windings.
- Multiple insulation systems from 200°C, and 240°C.
- Customized primary and/or secondary voltages.
- Fuses available for both primary and secondary coils.
- Reconnectable primary & secondary combinations to meet your application's needs.
- Enclosures available in all NEMA levels.
- UL recognized insulation system for units under 600V.
- Faraday shielding available.

Acutran Complete Service Guide

DRY-TYPE TRANSFORMERS

Acutran has over 5000 custom designs for dry-type transformers from 10VA up to 3500 kVA., as well as stocking programs for our standard units.

Acutran can design, manufacture and deliver most transformers within 4 weeks or less.

ENGINEERED SYSTEMS

New, energy efficient, oil-filled transformers, single-phase and three-phase. Pad mounted, substation, and pole mounted transformers available from 5 KVA to 60 MVA.

Reconditioned oil filled transformers available from 5 KVA to 10 MVA.

TRANSFORMER REPAIR SHOP

Acutran's Transformer Repair Shop offers complete repair and testing services for dry type and oil-filled transformers up to 3,500kVA.

Coil design and rewinding, reconditioning, oil analysis, and more available. All types and brands of transformers can be repaired and returned in as little as 3 weeks.

TRANSFORMER RENEWAL PARTS

Transformers are low maintenance, but not free of maintenance. Acutran has formed a cooperative buying agreement for key products. This gives our customers available stock on key oil-filled transformers renewal parts. This results in lower prices and faster delivery on over 4000 components.
